

The Plagues Scavenger Hunt - Connect Three

Ancient Egypt trusted in a lot of things they hoped would take care of them. God used those things as plagues to show He was the one true God.

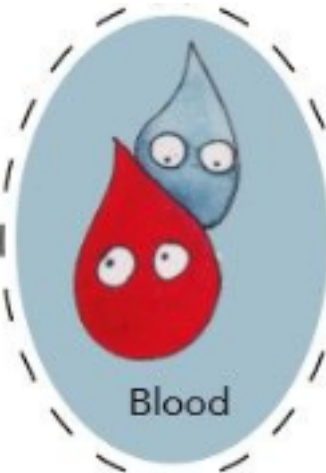

See if who is fastest to find and connect three items in a row that "could" represent that specific plague. Like a red sticker for a boil. (No live items...one's blood is alive.) Pick a judge then add your own house rules, like a younger and older team up against dad.
